

Bob Stutman

Robert Stutman, formerly “the most famous narc in America” (New York Magazine), made a 25-year career as one of America’s highest profile DEA Special Agents, five of which he worked undercover. As head of DEA’s largest office in the world, New York, Bob became so visible; Pablo Escobar had at one time targeted him for assassination. He has been featured on numerous national television shows and has been a drug consultant for both CBS and PBS News. He has consulted on several films including Traffic, Training Day, Blow, and American Gangster. His autobiography, “Dead on Delivery” was published by Warner Books and was the basis for the television movie “Mob Justice”. During his career with the DEA, Bob traveled to 73 countries, and met and discussed the drug issue with First Lady Nancy Reagan and two sitting Presidents; George H.W. Bush, and Bill Clinton. Bob provides presentations throughout the country annually to corporations, medical & dental professionals, schools and parents. Recent presentations include MD Anderson Cancer Hospital and the Florida Medical Association Opioid Summit as co-keynote speaker with Governor Rick Scott.

Judge Jodi
Debbrecht Switalski

Judge Jodi Debbrecht Switalski, Judge Jodi was appointed by the Governor of the State of Michigan to the bench after serving as a Metro-Detroit felony prosecutor with a perfect trial record. She now practices law focusing on, among other things, medical malpractice and business liabilities pertaining to substance use and abuse. Judge Jodi has received numerous awards and appointments and has been named best speaker or presented as keynote/plenary speaker at such notable engagements as the International Conference on Opioids at Harvard Medical School, MD Anderson Cancer Hospital in Houston, Texas, the National Association of Drug Court Professionals, the United States Probation Departments, numerous Automotive and Suppliers CEO Council meetings and conferences. She is a frequent guest on television and radio for Fox, NBC and CBS and has been featured in several documentaries including the PBS short, “Invisible Wounds” and the upcoming, “Needles in the Hay.”

MY KID! NOT MY COMPANY!

For the first time in history, more people died from accidental overdose of prescription drugs than from accidental overdose of illegal drugs. The Governors Highway Safety Association (GHSA) recently announced that virtually as many people die from driving under the influence of drugs as driving under the influence of alcohol. With these overwhelming statistics in mind, can you honestly say that you have the knowledge and are equipped to protect your family, let alone the workplace? Those that are using have no idea what they are taking and have no room for mistakes. Too much and they will kill you! How many of us realize that the drugs killing our children come from our own medicine cabinets? Too often by the time families or companies are receiving the facts about drugs and alcohol they are receiving it as an explanation to a serious incident and even tragedy. The real tragedy is that this is usually preventable. Bob Stutman will bring to the forefront the best research available showing us what we’re up against and how we can empower and protect our families and work environment from, what he believes, to be the greatest health issue in our world today.

Personal and Professional Liabilities in the Era of the Greatest Drug Epidemic our Country has Experienced: Curing the defects to your knowledge in both business and personal protocols.

At a time when current studies show that 70% of employers have been impacted by prescription drugs and only 19% feel prepared to deal with prescription drug use, the epidemic is costing businesses in this country billions of dollars annually. An intensely informative presentation, riddled with research, caselaw, anecdotes and wit, Judge Jodi will leave you with an understanding unlike any other of the current epidemic along with the tools to move forward to protect your business, yourself and your employees from the effects of the greatest drug epidemic this country has ever experienced. Drug Free Workplace policies, Employee Assistance Programs and Safety Testing laws and regulations are often outdated and could never have contemplated as originally written the impact of the use of controlled substances on the workplace, not to mention the legalization of marijuana. Key issues covered include:

- Current state of the controlled substance epidemic in the United States and Internationally
- Impact of the use and misuse of controlled substances on the individual and family
- Impact of the use and misuse of controlled substance on the business/employer
- Shifting trends in substance abuse and the relationship with Drug Free Workplace Policies, Employee Assistance Programs and the EEOC
- Status of the law and litigation (liability) relating to substance use and abuse in the workplace, drug screening and failure to train and inform with recommendations to cure liability
- Policy updates and employee education including the basics on controlled substances, influencers on risk, the impact on the family, current substance abuse trends and more.
